THREE-YEAR BACHELOR OF ARTS DEGREE PROGRAMS

(For students in a qualifying international education system)

The typical North American high school curriculum prepares college-bound students for a four-year bachelor's degree program. However, many international school systems prepare qualified high-school students for the three-year bachelor's degree program. For this reason, Global University offers 3 three-year bachelor of arts programs through national offices: Bible and Theology, Christian Education, and Intercultural Studies. The student should contact his or her national office to find out if the three-year program is offered in his or her country.

To be accepted into one of these three-year bachelor's programs, the student must (a) complete the application process, (b) have graduated from a qualifying international educational system that endorses the three-year bachelor's degree program, and (c) have "A"-level certificates or the equivalent.

The curricula for the 96-credit, three-year bachelor of arts degrees are given below. A minimum of 32 credits earned through Global University courses is required, 15 of which must be in the student's major.
